Welcome Back to Goodfoodmood

These days, hygiene is on everyone's mind. Especially when trying to enjoy a good meal at a restaurant or hotel. So if you're wondering what you can do to make your guests feel welcome and safe, take a look at our readily available solutions created to please and protect your guests.

Napkins:

Fresh and hygienic every time

Quick &
hygienic, no
folding
required

Prefolded napkins are perfect for speed of service, but also for hygiene. They limit the amount of handling by staff as folding is not needed, and when cutlery are placed on top, they act as a barrier between cutlery and table.

In Duniletto®
XL cutlery can
be placed upside
down

Duniletto protect cutlery from touching surfaces, helping to keep them as clean as the moment they were polished.

Sacchetto cutlery pockets come with a napkin inserted and have a separate pouch for cutlery to be placed, keeping both cutlery and napkin secure and clean.

Tips for your restart

- 1 Ask your guests to make a reservation in advance and take their contact details, customize your reservation platform where necessary and offer contactless payment options
- 2 Mark the tables that should be occupied, use disposable napkins, napkin or cutlery pouches as well as table sets or table covers, which can be quickly changed after each use
- 3 Clean the menu cards after each guest or use printed table sets with your menu card. A decorated side table can also help when serving to keep a distance from the guests
- 4 Create anticipation for a visit to the restaurant and offer specials or coupons, communicate the hygiene measures you have taken to satisfy the increased safety awareness of the guests
- 5 In addition to hygiene aspects, be sure to create a feel-good atmosphere for your guests with the right decoration and lighting
- 6 Instead of a (breakfast) buffet, offer hygienically pre-packed food

Always fresh & practical for handling

Single use table coverings help you provide a fresh start to every meal by creating a hygienic barrier between guest and table surface. Available in a variety of colours, qualities, and formats to suit all occasions.

Tete-a-tetes give you a semi-covered table, perfect for creating a contemporary look without compromising on hygiene.

Table covers - Covering the whole of the table, these are the ultimate choice for ensuring a clean surface. Our premium covers are packed with the reverse side outwards to protect against bacteria and dust when handled by staff.

Placemats are cost-effective and ideal when you need to lay tables quickly and hygienically.

Glass lids are ideal to protect drinks and practical to use.

Fresh & safe take-away solutions

Our take-away range with hygienic Duni and BioPak packaging solutions covers everything, from safe-closing bowls, boxes and cups to grass paper packaging, cutlery sets, napkins and our smart Duniform® seal concept.

The smart **Duniform® seal concept** enables packaging to be hygienically sealed in no time. You get everything from one source: machines, bowls, sealing films and transport boxes.

Reliable packaging concepts for every requirement – a flexible and wide selection of sustainable **packaging solutions** in different sizes & compartment sizes for all kinds of food and drinks.

With the large selection of **sealable bowls** in various shapes and compartment sizes as well as **cups & glasses** the Duniform® concept offers the ideal opportunity to treat guests to food and drinks that are guaranteed to be fresh every time.

Pre-packed instead of buffet

Pre-packed food made easy

Instead of a (breakfast) buffet, offer the right food hygienically pre-packed – and for this we offer a wide range of flexible and sustainable packaging & cup solutions, which make preparation, serving and food & drink presentation easier for you. Our product range also includes solutions for all kinds of baked goods (bags, bowls, wrapping paper).

Quickly & easily pre-packed

Prepared quickly, served quickly – food can be pre-packed quickly & easily in practical **boxes & bowls** of all shapes and sizes, featuring safe-closing lids. Many are also sealable, for optimum freshness.

Sealable solutions are also available

For cold drinks, muesli, snacks, yogurt, etc. our crystal clear **glass solutions** (e.g. rPET Crystal), are ideal, versatile, and optionally available with inserts. Many are also sealable.

Cups & glasses for warm & cold drinks as well as muesli, snacks, etc.

Our **cup solutions** (e.g. Sweet Cup) are the right choice for warm or cold drinks, or even shakes. Safe-closing lids are available in many versions & shapes, from flat lid to dome lid.
