- UL certifies commercial and household toilet and facial tissue, napkins, and hand and kitchen towel products under its UL 175 Sanitary Paper Standards for an overall reduced environmental impact.
- These standards address recycled content and chlorine-free bleaching processes.
- Standard criteria also includes "downstream" effects such as effluent content, air emissions, solid waste reduction, and energy consumption.
- The holistic approach incorporated in this certification matches our philosophy of environmental stewardship.

Tork Coreless High Capacity Toilet Paper System (T7)

Smart and attractive – these dispensers are easy to place, even in a smaller restroom. They also keep maintenance down to a minimum, as two rolls have the same capacity as four conventional rolls. They're ideal for restrooms with medium traffic, and available in high gloss black or white.

Each roll is equivalent to 2 conventional toilet paper rolls*

- Always another roll available
- Less space needed for storage
- No core, no waste

*Based on 472880 (1,000 sheets vs typical AFH conventional 500 sheets/roll)

All Tork Toilet Paper is Septic Safe, see page 8 for more information.

Tork Coreless Toilet Paper Roll

T7

- Sleek and compact to save space
- Holds two rolls and requires less frequent refilling

Microfibers

Microfibers are very fine generating a lot of surface area, which increase absorbency. Gaps between split fibers in our Microfiber cloths create pockets that easily pick up dirt and dust and are also fine enough to pick up microbes. When woven together into a textile cloth, microfibers create a cloth with excellent and efficient cleaning properties.
